SUMMARY

Enthusiastic and detail-oriented aspiring QA Engineer with knowledge of Manual Testing, API Testing, and Automation Testing. Skilled in Java, Selenium WebDriver, TestNG, Postman, REST API, SOAP API, PostgreSQL, Git, GitHub, and Jenkins. Interested in building reliable and scalable software through effective testing practices. Currently improving skills in automation frameworks, API testing, and real-world QA processes.

TECHNICAL SKILLS

Automation & CI/CD: Java, Selenium WebDriver, Selenium Automation, TestNG, Jenkins, Jenkins, Git, GitHub, Linux, HTML, CSS, JS

Testing: Automation Testing, Manual Testing, Functional Testing, Regression Testing, Smoke Testing, Test Case Design, Defect Lifecycle, JIRA

Backend & API: SQL, Backend Testing, Data Validation, API Testing, Postman, REST API

Methodologies: SDLC, STLC, Agile, Scrum, AI-assisted development tools: ChatGPT, Copilot, Claude

EXPERIENCE

Software Testing Intern — KodNest Dec 2025 – May 2026
SQL · Unix/Linux · Java · Application Support Bangalore, India

- Assisted in developing and executing automated test scripts using Selenium WebDriver and Java.
- Performed functional and regression testing to identify bugs and ensure application quality.
- Worked with SQL for database with 100k rows validation and gained exposure to SDLC, Agile methodology, and defect tracking processes.

PROJECTS

E-Banking Web Application Automation — [GitHub](#)

Selenium, Java, TestNG, Jenkins, CI/CD

- Automated functional, regression, and smoke test cases for authentication, fund transfers, and account validation flows.
- Implemented Page Object Model to improve test automation maintainability and scalability.
- Integrated automation framework with Jenkins CI/CD pipeline to trigger automated test execution and generate test reports during build execution.

Transaction Failure Analysis Using SQL — [GitHub](#)

SQL, Backend Testing, Data Validation

- Validated backend transaction data using SQL queries to identify failed, missing, and inconsistent records.
- Analyzed recurring transaction failure patterns to support defect root cause analysis.

API Testing Using Postman

REST API Testing

- Executed REST API test scenarios validating request parameters, headers, authentication, status codes, and response payloads.

EDUCATION

Global Academy of Technology, Bangalore

Bachelor of Engineering (B.E.) in Artificial Intelligence and Machine Learning
CGPA: 7.9

Dec 2022 – Jul 2025

CERTIFICATIONS

- Manual Software Testing Fundamental — Udemy
- Selenium 4 WebDriver with Java — Udemy
